Vestas receives orders for V90 turbines for Spain

The Vestas group has received orders for a total of 20 units of the V90 wind turbine for two wind farms to be located near Tarifa in the Andalusia region in Spain. The orders have been placed by Parque Eólico Bancal S.L. and Parque Eólico Los Siglos S.L., which are owned by the same group.

The projects are both turnkey deliveries including a 2-year service, maintenance and warranty agreement. Delivery of the turbines will begin at the end of 2005 and commissioning of the wind power plants is expected to take place during the spring of 2006.

"We are very pleased with these two new contracts for MW-turbines for Spain, which emphasise that the V90-1.8 and the V90-2.0 MW turbines are optimal for the wind regime in this region", says Ditlev Engel, President and CEO of Vestas Wind Systems A/S and continues: *"The Spanish government's proposal of increasing the wind power target from 13,000 to 20,000 MW supports Vestas' expectations of a continued large and stable Spanish market".*

The above orders do not affect the Vestas Group's expectations for 2005, cf. Stock exchange announcement No. 15/2005 of 26 May 2005.

Any questions may be addressed to the Executive Management at Vestas Wind Systems A/S, telephone +45 9730 0000.

Yours sincerely
Vestas Wind Systems A/S

Ditlev Engel
