### **Vestas receives order for 31 units of the V90-3.0 MW wind turbine to New Zealand**

The Vestas Group has received an order for 31 units of the V90-3.0 MW wind turbine for the Tararua III Wind Farm, which is located close to Palmerston North in the North Island of New Zealand.

The order for the Tararua III Wind Farm project has been placed by Tararua Wind Power Limited, a wholly owned subsidiary of TrustPower Limited.

The order consists of delivery, installation and commissioning, remote control systems as well as a five-year service and maintenance agreement.

Shipment of the turbines will begin in late 2006, and commissioning of the wind power plant will take place during the first half of 2007.

"Vestas is extremely pleased to see the introduction of the V90-3.0 MW platform into the strong New Zealand market and further develop our relationship with TrustPower," says Thorbjørn N Rasmussen, President of Vestas Asia Pacific A/S.

Vestas has previously supplied a total of 103 units of V47-660 kW turbines for the Tararua I and II projects in New Zealand.

The above order does not affect the Vestas Group's expectations for 2005, cf. Stock exchange announcement No. 40/2005 of 24 November 2005.

Any questions may be addressed to the Executive Management or to the Vice President of Communication & IR at Vestas Wind Systems A/S, Annette Munk Rasmussen, phone +45 97 30 00 00.

Yours sincerely  
**Vestas Wind Systems A/S**
