### **Vestas receives order for V90-2.0 MW wind turbines for Germany**

The Vestas Group has received an order for 20 units of the V90-2.0 MW turbine for a wind power plant in Würzburg in the state of Bavaria, Germany.

The order, which is a utilization of a frame agreement signed earlier list year, has been received from Voltwerk AG in Hamburg. Voltwerk AG is one of the leading German issuing houses for investments in renewable energy and the company has up to now structured and financed wind und solar parks with an investment volume of approximately EUR 400m.

*"We are happy to be able to expand our working relationship with Vestas. Through the high reliability of the V90-2.0 MW turbine, we are able to offer our customers an optimal financial performance. For projects which are calculated with a lifetime of 20 years, this is of great importance to the investors,"* says Nikolaus Krane, CEO of Voltwerk AG.

*"Vestas is very pleased to receive the order from Voltwerk AG which confirms the long partnership between our companies and the confidence in the V90-2.0 MW turbine,"* says Hans Jörn Rieks, President of Vestas Central Europe.

The above order does not effect the Vestas Group's expectations for 2005 and 2006 cf. Stock exchange announcement No. 40/2005 of 24 November 2005.

Any questions may be addressed to Hans Jörn Rieks, President of Vestas Central Europe, telephone: +49 4841 971 107 or to Annette Munk Rasmussen, Vice President of Communication & IR at Vestas Wind Systems A/S, telephone +45 97300000. Questions for Voltwerk AG may be addressed to IR Manager, Mr Marx, telephone: +49 40/23 71 02-311

Yours sincerely  
**Vestas Wind Systems A/S**
