Vestas receives confirmation of order from Horizon Wind Energy for an additional 200 MW for delivery in the USA in 2007

As mentioned in Stock exchange announcement No. 43/2005 of 20 December 2005, Vestas had given an option to Horizon Wind Energy LLC (Horizon) whereby Horizon could order up to 200 MW of wind turbines for 2007. Vestas is hereby pleased to announce that Horizon has decided to utilise this option to purchase an additional 200 MW of V80-1.8 MW and V82-1.65 MW wind turbines for delivery in 2007.

Horizon Wind Energy LLC (formerly Zilkha Renewable Energy), a long-time Vestas customer, is located in Houston, Texas and is a wholly owned subsidiary of the Goldman Sachs Group. The company has a portfolio of over 5,000 MW of wind generating capacity in various stages of development in a dozen states.

"We are very pleased that Horizon has confirmed this order with Vestas for these additional turbines. This reaffirms Horizon's confidence in Vestas and Vestas' ability to meet the challenges of a strong world-wide demand for wind turbines," says Jens Søby, President of Vestas Americas.

The above order does not affect the Vestas Group's expectations for 2006, cf. Stock exchange announcement No. 40/2005 of 24 November 2005.

Any questions may be addressed to the Executive Management or to Annette Munk Rasmussen, Vice President of Communication & IR at Vestas Wind Systems A/S, telephone +45 9730 0000. Questions for Horizon Wind Energy LLC may be addressed to Michael Skelly at +1 713 265 0243.

Yours sincerely
Vestas Wind Systems A/S
