Vestas receives new orders for Spain and France

The Vestas Group has received orders for a total of 36 MW for two projects in Spain and France.

The 24 MW turnkey order for the Robres wind power plant in Spain has been placed by the Spanish wind farm developer, Eólica del Ebro S.A. – in which company the Spanish developer Eólica Navarra holds the majority of the shares. The order consists of 10 units of the V90-1.8 MW wind turbine and three units of the V90-2.0 MW wind turbine. The wind power plant will be located in Huesca in the Spanish region Aragón.

The 12 MW turnkey order for the Beausemblant wind power plant in France has been placed by Eoliennes de Beausemblant S.A.S., which is a project company owned by Generación Eólica Internacional, a subsidiary of the Eólica Navarra Group. The order consists of five units of the V90-2.0 MW wind turbine and one unit of the V80-2.0 MW wind turbine. The wind power plant will be located in the Drôme department in the region of the Rhône-Alpes.

“We are very pleased with these orders for Spain and France, which are the fruit of five years of close cooperation with Eólica Navarra”, says Ebbe Funk, President of Vestas Mediterranean West A/S.

Delivery of all turbines will begin at the end of 2006, and the wind power plants will be completed during the first half of 2007.

The above order does not affect the Vestas Group's expectations for 2006, cf. Stock exchange announcement No. 40/2005 of 24 November 2005.

Any questions may be addressed to the Executive Management at Vestas Wind Systems A/S, telephone +45 9730 0000 or to Ebbe Funk, President of Vestas Mediterranean West A/S, telephone +34 93 241 98 00.

Yours sincerely
Vestas Wind Systems A/S
