

## Company Announcement from Vestas Wind System A/S

Randers, 30 December 2009  
Company announcement No. 27/2009  
Page 1 of 1

### **Vestas receives 96 MW order for Poland**

Vestas has received an order for delivery of 48 V90-2.0 MW wind turbines for different locations in Poland. The order has been received from the German company Prokon. The contract includes delivery, installation and commissioning of the turbines and a VestasOnline® Business SCADA solution.

Delivery of the turbines will take place during 2010 to 2012.

*"We have worked very successfully with Vestas on the German market for many years, so for us it is only natural also to choose Vestas as partner for our first projects in Poland,"* states Carsten Rodbertus, Managing Director of Prokon.

Prokon has more than 15 years of experience as a developer, investor and operator of wind energy projects. Until today, Prokon has installed a total of 234 wind turbines distributed on 32 wind farms in Germany. Besides wind energy, Prokon is also active within bio fuel and renewable investments.

*"This new contract with Prokon is a very important order for us, and we are very pleased that Prokon has decided to plan their first projects in Poland together with Vestas,"* says Klaus Steen Mortensen, President of Vestas Northern Europe.

The above order does not affect Vestas' expectations for 2009 and 2010, cf. company announcement No. 22/2009 of 27 October 2009.

Yours sincerely  
**Vestas Wind Systems A/S**

Ditlev Engel  
President and CEO
