Vestas receives orders for three projects in Greece

Vestas Hellas has received orders for three wind power plants in Greece totalling 15 units of the V80-2.0 MW turbine and 18 units of the V52-850 kW turbine. The orders comprise delivery, supervision and installation of the wind power plants and a five-year warranty, operation and maintenance agreement.

Delivery of the projects will start in the summer of 2007 and the wind power plants will be commissioned during the fourth quarter of 2007.

The orders have been placed by Terna Energy S.A. which is headquartered in Athens and is an important development company within the energy sector in Greece. Terna Energy S.A. is one of the biggest customers of Vestas Hellas, and during recent years, Vestas Hellas has completed projects in Greece with a total capacity of more than 100 MW together with Terna Energy S.A.

"We are very pleased to continue our long partnership with Terna Energy S.A. which is one of the leading companies within the energy sector in Greece", says Johnny Holm, General Manager of Vestas Hellas and continues: "The orders mark an important step in securing Vestas' continuous strong position in Greece."

Vestas Hellas has been operating in Greece since 2000. The main office is located in Athens and furthermore, Vestas is represented in Greece with seven service offices with the purpose of providing Vestas' customers with the best service in the industry and consequently securing optimal electricity production of all wind power plants installed. Today about forty out of Vestas Hellas' approx sixty employees are working in the service department.

Vestas has installed a total of 353 MW in Greece and thereby the company holds a leading position in the market.

Any questions in relation to the orders may be addressed to Mr Johnny Holm, General Manager of Vestas Hellas, telephone +30 210 9646251 or to Mr Ebbe Funk, President of Vestas Mediterranean A/S, telephone +34 93 241 9800.

Yours sincerely

Vestas Mediterranean A/S
