Vestas signs contracts for 46 MW to be installed in Italy

Vestas Italia has received an order for a total of 46 MW for the Giarratana project, located in the Sicily region in Italy. The project includes supply, installation, a VestasOnline™ Business SCADA solution as well as a two-year service agreement.

The order has been placed by IVPC through its project company Trinacria Eolica S.r.l. IVPC is the largest Italian wind energy operator, and has been one of the pioneers of the wind business development in Italy.

“In connection with the celebration of our 10-year anniversary in Italy, this new order reaffirms the strong business relationship we have had with IVPC throughout all these years,” says Rainer Karan, General Manager of Vestas Italia S.r.l., and continues: *“Having installed 972 Vestas wind turbines on the Italian market by the end of December 2007, IVPC is for sure a loyal Vestas customer. We will continue to use dialogue as a key-driver for maintaining our fruitful cooperation for future projects.”*

The Giarratana project, which will be located near the city of Ragusa in Sicily, will consist of 7 units of the V90-1.8 MW turbine and 11 units of the V90-3.0 MW turbine.

With a total estimated annual production of approx 108 GWh per year, the Giarratana project will be able to satisfy the energy needs of 45,000 Italian households, and will save the environment from almost 50,000 tons of CO₂.

Delivery for the project is scheduled to start in December 2008 and the project will be completed by June 2009.

Vestas Italia

Vestas has been operating in the Italian market since 1998 through the company Vestas Italia S.r.l.

Located in Taranto in the southern part of Italy, Vestas Italia, this year celebrating its 10-year anniversary, is responsible for sales, installation, service and maintenance of wind power plants for the markets of Italy and the Eastern Mediterranean countries.

With 1,590 turbines installed and commissioned in Italy by December 2007, representing 55 per cent of all wind installations in the country, and a well-structured service and maintenance organisation, Vestas Italia is the most professional and experienced partner within the wind industry in Italy.

Vestas' production facilities for the V52-850 kW turbine are also located in Taranto, together with the recently inaugurated V90-3.0 MW nacelles factory,.

Vestas Italia has been awarded ISO 9001, ISO 14001 and OHSAS 18001 certifications and is constantly striving for high quality standards to be respected and applied in every field of the supply chain.

Any questions in relation to the order may be addressed to Mr Rainer Karan, General Manager of Vestas Italia S.r.l, telephone +39 099 4606 259, or to Mr Juan Araluca, President of Vestas Mediterranean A/S, telephone +34 93 241 9800.

Yours Sincerely
Vestas Mediterranean A/S

Juan Araluca
