

Company announcement from Vestas Wind Systems A/S

Aarhus, 20 December 2013
Company announcement No. 52/2013
Page 1 of 1

Vestas receives 220 MW order in the USA and increases the potential of the master supply agreement with EDF from 750 MW to 1,174 MW

Vestas has received a firm and unconditional order for 110 V100-2.0 MW turbines in the USA and increases the potential of the master supply agreement with EDF announced in September 2013 from 750 MW to 1,174 MW.

Additional information about the project:

Customer:	EDF Renewable Energy
Project name:	The Hereford 1 and Longhorn North wind power plants
Location/Country:	Texas, USA
Number of MW:	220 MW
Number of turbines/turbine type:	110 x V100-2.0 MW
Contract type:	Supply-only
Contract scope:	The order includes supply and commissioning of the wind turbines, as well as at least a three-year Active Output Management (AOM) 5000 service agreement for both projects.
Time of delivery:	Deliveries for both projects are expected to occur in the second half of 2014 while commissioning will be in the first half of 2015.

Total year-to-date announced order intake in MW: 4,761 MW, (see overview at vestas.com/investor).
