

## News release from Vestas Wind Systems A/S

14 March 2016

### Vestas hires Senior Vice President for Corporate Strategy

As of 1 April 2016, Rasmus Lundsgaard Nielsen will join Vestas as Senior Vice President for Corporate Strategy, M&A and Global Intelligence. The function's main responsibilities will be to shape the corporate strategic agenda in close collaboration with Vestas' executive team, optimize and coordinate Vestas' annual planning process, and provide the group with a unified market outlook.

Rasmus Lundsgaard Nielsen, 39, will be part of the Global Management Team.

Rasmus holds a Master of Science degree in Economics, Statistics and Strategic Planning from Aarhus School of Business. Furthermore, Rasmus has professional experience from a start-up within the medico technology sector, from business development, market intelligence and product management within a global consumer goods company, and close to eight years of management consulting experience from the Management Consultancy QVARTZ.

As a consultant, Rasmus has worked across several industries, from the Private Equity sector, Automotive, Telecommunications, and Consumer Goods to Renewables. During the last two years, Rasmus has supported Vestas with the development and refinement of the Corporate Strategy and the Annual Corporate Planning Process.

#### About Vestas

Every single day, Vestas wind turbines deliver clean energy that supports the global fight against climate change. Wind power from Vestas' more than 56,800 wind turbines currently reduces carbon emissions by over 78 million tons of carbon dioxide every year, while at the same time building energy security and independence. Vestas has delivered wind energy in 75 countries, providing jobs for around 20,500 passionate people at our service and project sites, research facilities, factories and offices all over the world. With 52 percent more megawatts installed than anyone else in the industry and close to 74 GW of cumulative installed capacity worldwide, Vestas is the world leader in wind energy.
