Vestas receives 149 MW order in Canada

With reference to Vestas Wind Systems A/S' company announcement No. 25/2011 of 30 May 2011, Vestas has received a 149 MW order for 83 V90-1.8 MW turbines for a wind-energy project in Canada.

The contract includes delivery and commissioning along with a 10-year service and maintenance agreement. Delivery is scheduled for fall 2012 and commissioning expected in late 2012.

The project's name and specific location will be disclosed at a later date.

It is Vestas' second announced order in Canada in 2011. In April, Vestas secured an order for 104 MW consisting of 58 V90-1.8 MW turbines. Overall, Vestas has secured five orders in North America this year equating to 774 MW.

Vestas is the No. 1 wind-turbine supplier in Canada, providing an industry-leading 1,021 turbines totaling 1,683 MW of installed capacity as of Dec. 31, 2010.
