

Vestas Supplier Sustainability Commitment List

This document lists Vestas' suppliers that have committed to ramp up their ambition level on sustainability. The listed suppliers cover 30 percent of Vestas' material spend and have committed to:

- 100 percent renewable electricity by 2021
- Measure and set targets for reducing scope 1 and 2 greenhouse gas emissions by 2021
- Measure and set targets for reducing production waste by 2021
- Measure and set targets for reducing scope 3 emissions by 2022
