Vestas receives 194 MW order in the USA

Vestas has received a firm and unconditional order for 97 V100-2.0 MW turbines under the EDF Renewable Energy master supply agreement.

Additional information about the project:

Customer:	EDF Renewable Energy
Project name:	Undisclosed at the customer's request
Location/Country:	Texas, USA
Number of MW:	194 MW
Number of turbines/turbine type:	97 V100-2.0 MW turbines
Contract type:	Supply-only
Contract scope:	The order includes supply and commissioning of the wind turbines, as well as a five-year Active Output Management (AOM 5000) service agreement.
Time of delivery:	Delivery is expected to be completed in the fourth quarter of 2015, with commissioning completed the same year.

Total year-to-date announced order intake in MW: 584 MW, (see overview at vestas.com/investor). As the order became firm and unconditional in the first quarter local time in Vestas Americas' headquarters in Portland, Oregon, USA, the order will count as first-quarter 2014 order intake.
