7. Proposals from the Board of Directors

7.1. Reduction of the company's share capital

In February 2018 and in August 2018, the company initiated share buy-back programmes of up to DKK 1,500 million and DKK 1,500 million, respectively. The purpose of the share buy-back programmes was to adjust the company's capital structure and to meet obligations arising from share-based incentive programmes to employees of Vestas, see company announcement No. 05/2018 of 12 February 2018 and company announcement No. 28/2018 of 15 August 2018.

The Board of Directors proposes that the company's share capital be reduced from nominally DKK 205,696,003 to nominally DKK 198,901,963 through cancellation of treasury shares of nominally DKK 6,794,040, corresponding to 6,794,040 shares of nominally DKK 1.

The capital reduction is legally considered as distribution to the shareholders, see section 188(1)(2) of the Danish Companies Act, as the amount of the capital reduction has been paid out to the shareholders as payment for shares acquired by the company. The shares to be cancelled were acquired by the company (i) during the period from 12 February 2018 until 3 May 2018 at a total of DKK 1,499,999,892 (totalling 3,498,469 shares), corresponding to an average price of DKK 428.76 per share (rounded off), and (ii) during the period from 15 August 2018 until 18 December 2018 at a total of DKK 1,427,257,798 (totalling 3,295,571 shares), out of the total of DKK 1,499,999,821 share buyback during that period, corresponding to an average price of DKK 433.08 per share (rounded off), which means that, in addition to the nominal reduction amount, a total of DKK 2,920,463,650 has been distributed to the shareholders.

If the capital reduction is adopted and completed, article 2(1) of the Articles of association will be amended as follows:

"The Company's share capital amounts to DKK 198,901,963 (one hundred and ninety eight million nine hundred and one thousand nine hundred and sixty three Danish kroner 00/100), divided into shares in the denomination of DKK 1."

Prior to completion of the capital reduction, the company's creditors will be requested to file claims, if any, within a four-week deadline through the Danish Business Authority's IT system, see section 192(1) of the Danish Companies Act.

7.2. Renewal of the authorisation to acquire treasury shares

The Board of Directors proposes that the Board of Directors be granted an authorisation to allow the company to acquire treasury shares in the period until 31 December 2020 up to an aggregate of 10 percent of the company's share capital at the time of the authorisation, provided that the company's total holding of treasury shares does not at any time exceed 10 percent of the company's share capital. The purchase price paid in connection with acquisition of treasury shares must not deviate from the price quoted on Nasdaq Copenhagen at the time of acquisition by more than 10 percent.

8. Authorisation of the chairman of the general meeting

The Board of Directors proposes that the general meeting authorise the chairman of the general meeting (with a right of substitution) to file and register the adopted resolutions with the Danish Business Authority and to make such amendments to the documents filed with the Danish Business Authority, as the Danish Business Authority may request or find appropriate in connection with the registration of the adopted resolutions.

9. Any other business

Aarhus, 27 February 2019

Vestas Wind Systems A/S
On behalf of the Board of Directors

Bert Nordberg
Chairman of the Board of Directors

Appendix 1: Election of members to the Board of Directors

Election of members to the Board of Directors

Pursuant to Vestas Wind Systems A/S' Articles of association, the Board of Directors shall consist of five to ten members to be elected by the general meeting for a term of one year.

Board members elected by the general meeting may be recommended for election by the shareholders or by the Board of Directors.

Recruitment criteria

In connection with the election of board members by the general meeting, the retiring Board of Directors shall nominate candidates for the vacant offices on the board in order to ensure that the shareholders are able to elect a continuing Board of Directors.

When proposing candidates for board membership, the Board of Directors strives to ensure that the Board of Directors:

- is able to act independently of special interests;
- represents a balance between continuity and renewal;
- matches the company's situation;
- is knowledgeable of the industry and has the business and financial competencies necessary to ensure that the Board of Directors can perform its duties in the best way possible; and
- reflects the competencies and experience required in order to manage a company with shares registered for trade on a stock exchange and fulfil its obligations as a listed company.

The Board of Directors uses external assistance for the search process and assessment of the profiles and qualifications specifically required in order to complement the expertise reflected in the overall composition of the Board of Directors.

Information about proposed candidates

The information on the following pages describes the competencies and directorships with other Danish and foreign listed and non-listed companies and organisations as disclosed by the board member candidates.

The company's Articles of association do not include restrictions concerning the number of times a director may be re-elected to the Board of Directors. The Board of Directors finds that seniority in itself is not a crucial criterion, but that long seniority and extensive experience can be highly beneficial to the company.

The Board of Directors finds that the candidates proposed by the Board of Directors represent broad international business management experience. New candidates are selected on the basis of criteria such as gender and age, always provided that the other recruitment criteria are not compromised.

In the light of the company's development and expectations for future growth, continuity in the composition of the Board of Directors has been a major advantage to the company, and the Board of Directors assesses that there is still a need for such continuity.

Policy for procurement of audit and non-audit services

The Vestas Group's auditors may be used, within certain parameters, for certain non-audit services, and they may often be the preferable choice due to business knowledge, confidentiality, and cost considerations.

Vestas has a policy for non-audit services ensuring that the provision of non-audit services to the Group does not impair the auditor's independence or objectivity. The Audit Committee is responsible for the development and maintenance of this policy and monitors compliance.

During 2018, audit and non-audit services provided by the Group auditors globally totalled EUR 4 million, of which 84 percent is audit related – the ratios have been calculated in accordance with guidelines prepared by certain proxy advisors. Excluding significant projects that are considered one-off in nature, audit related services accounted for 90 percent of audit and non-audit services provided by the Group auditors globally in 2018.
