Vestas wins 42 MW order in Poland

ERG Renew orders 21 V90-2.0 MW turbines for wind power project in the province of Radziejów

Vestas has received a firm and unconditional order for 21 V90-2.0 MW turbines for a wind power project in kujawsko-pomorskie in the province of Radziejów. The order was placed by ERG Renew, the leading wind energy operator in Italy and one of top 10 operators in Europe.

The wind power plant will be installed in the province of Radziejów in kujawsko-pomorskie. The wind turbine delivery is expected in the second quarter of 2015 with commissioning expected to be completed in the third quarter of 2015.

The contract includes supply, installation and commissioning of the 21 V90-2.0 MW turbines, along with a VestasOnline® Business SCADA solution.

Vestas is pleased that our valued customer ERG Renew has chosen us to partner with them to develop a wind power project in Poland,” says Klaus Steen Mortensen, President of Vestas Northern Europe. “As a business partner Vestas will ensure a flawless execution of the project to maximize the business case for ERG. It is a long-term partnership we embark on every time we sign an order for Vestas turbines.”

Today, Vestas has delivered about 540 wind turbines, totalling more than 1,100 MW, to Poland.

About Vestas

Every single day, Vestas wind turbines deliver clean energy that supports the global fight against climate change. Wind power from Vestas’ more than 52,000 wind turbines currently reduces carbon emissions by over 60 million tons of CO₂ every year, while at the same time building energy security and independence. Today, Vestas has installed turbines in 73 countries, providing jobs for approximately 17,500 passionate people at our service and project sites, research facilities, factories and offices all over the world. With 52 per cent more megawatts installed than our closest competitor and more than 62 GW of cumulative installed capacity worldwide, Vestas is the world leader in wind energy.
