

News release from Vestas Mediterranean

Madrid, 26 February 2016

Vestas wins 268 MW service contract

Vestas extends a long-term service contract with a Spanish wind developer to maintain six wind parks, totalling 268 MW, for the remainder of their expected lifetime.

A Spanish wind project developer has extended a full-scope Active Output Management (AOM) 4000 service contract with Vestas to operate and maintain six wind parks in Spain. The AOM 4000 solution provides superior support in key areas, tailor-made to strengthen the customer's business case.

President of Vestas Mediterranean, Marco Graziano, says that *"We're extremely pleased that this valued customer has decided to renew their service agreement for the six wind parks. This is a very significant agreement echoing the momentum that Vestas' service business is experiencing through creating tailor-made service solutions to meet our customers' specific needs of optimising energy output, minimising downtime, and extending turbine lifetime"*.

About Vestas

Every single day, Vestas wind turbines deliver clean energy that supports the global fight against climate change. Wind power from Vestas' more than 56,800 wind turbines currently reduces carbon emissions by over 75 million tons of carbon dioxide every year, while at the same time building energy security and independence. Vestas has delivered wind energy in 75 countries, providing jobs for around 20,500 passionate people at our service and project sites, research facilities, factories and offices all over the world. With 52 percent more megawatts installed than anyone else in the industry and close to 74 GW of cumulative installed capacity worldwide, Vestas is the world leader in wind energy.
