

News release from Vestas-American Wind Technology

Portland, 19 December 2016

Vestas secures order for 42 MW in the United States

The order comprises V110-2.0 MW turbine components that enable future project pipeline.

Vestas has received a firm and unconditional order totaling 42 MW in the United States with multiple components being produced at Vestas' Colorado factories.

"Low-cost domestic wind energy brings substantial economic benefits to ratepayers and the communities that host these projects including long-term secure jobs in the manufacturing, construction and operations of these projects", said Chris Brown, President of Vestas' sales and service division in the United States and Canada.

Customer name has not been disclosed at the customer's request.
