

## News release from Vestas Mediterranean

Madrid, 30 December 2016

### Vestas receives 42 MW order in Brazil

*The order takes Vestas to more than 1.5 GW of installed and under construction wind capacity across five states in the Brazil.*

Vestas has received a firm an unconditional order for 21 V110-2.0 MW wind turbine for the Cabeço Vermelho I and Cabeço Vermelho II wind park to be located in Rio Grande do Norte. The order placed by Gestamp Eólica Brasil S.A. comprises the supply and installation of the wind turbines as well as a 10-year full-scope Active Output Management 4000 (AOM4000) service agreement in order to maximise output.

*“Gestamp has been a great partner through these years and also the Vestas customer who received the first nacelle produced at our facility in Ceara, certified by FINAME II. We are very lucky to share with a high level customer such as Gestamp, our roadmaps, new project ideas and opportunities”,* says Rogério Zampronha, General Manager for Vestas Brazil.

The turbines will be produced in Brazil with delivery planned to begin in the fourth quarter of 2017, whilst commissioning is expected for the second quarter of 2018.

#### About Vestas

Vestas is the energy industry's global partner on wind power solutions. We design, manufacture, install, and service wind turbines across the globe, and with 78 GW of wind turbines in 75 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled 68 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 21,900 employees are bringing the world sustainable energy solutions to power a bright future.
