

News release from Vestas China

28 June 2017

Vestas wins 50 MW order in China

The turbines are ordered by supplier and new customer, Jiangsu Sinojit Wind Energy Technology Co., Ltd., and are V110-2.0 MW turbines delivered with Power Optimised Mode of 2.2 MW.

The firm and unconditional order is for Xuanhuihe project in Yanshan County of northern China's Hebei Province. It includes supply and supervision of installation as well as an Active Output Management 4000 (AOM4000) service contract, guaranteeing a defined level of availability and performance.

Further, the order also includes VestasOnline[®] Business, our unique SCADA system for data-driven monitoring and preventive maintenance. Turbine delivery is expected to begin in the fourth quarter of 2017.

"We have established in-depth cooperation with Vestas over the past years, and we look forward to reinforcing this model of strategic partnership in the future to jointly contribute to the development of the global new energy industry for the shared vision of low-carbon and greener planet," said Zhenhua Bao, President of Sinojit, a leading Chinese group of research, development and production of large-scale wind turbine castings.

"Sinojit is a Vestas supplier and we are honoured to provide the turbines for their first wind power plant. Through our cooperation, we have built a high level of trust and we look forward to support Sinojit in developing wind parks and hereby strengthen our partnership further," said Kebao Yang, President of Vestas China.

With today's announcements, Vestas has announced around 475 MW of orders in China in 2017.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 83 GW of wind turbines in 76 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 73 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 22,000 employees are bringing the world sustainable energy solutions to power a bright future.
