

## News release from Vestas China

Beijing, 15 December 2017

### Vestas secures 51 MW order in China

Vestas has secured a contract with a long-term customer to supply 23 V110-2.0 MW turbines delivered in 2.2 MW Power Optimised Mode. The project will be located in the Liaoning Province of Northeastern China and lifts Vestas' order intake in 2017 to more than 760 MW – the highest since 2011.

The order also includes an Active Output Management 4000 (AOM 4000) service contract. Delivery and commissioning are expected to begin in the second quarter of 2018.

*“This is our fourth order in Liaoning Province in less than two years, which underlines our progress in Northeastern China through a strong focus on building customer relationships and the right wind energy solutions. The project takes Vestas' order intake in China to a six year high, emphasising our competitiveness in the world's largest wind energy market,”* said Kebao Yang, Vestas Group Senior Vice President and President of Vestas China.

Customer name and other information have not been disclosed at the customer's request.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with 87 GW of wind turbines in 76 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 73 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 22,700 employees are bringing the world sustainable energy solutions to power a bright future.
