Vestas India receives second order from Ecoren Energy in 2018

Ecoren Energy has placed an order with Vestas for the 20 MW Mullur Wind Farm in the state of Karnataka. The order includes supply and installation of nine V110-2.0 MW turbines delivered in 2.2 MW Power Optimised Mode, a 10-year full scope AOM 5000 service contract as well as a VestasOnline® Business SCADA system for data-driven monitoring and preventive maintenance. Turbine delivery has started and commissioning is expected by the fourth quarter of 2018.

“With the second order from Ecoren Energy this year, we underline how our reliable and versatile technology delivers the most effective solutions and lowest cost of energy for our customers in India. The Indian wind energy market is growing tremendously and with this order, Vestas will further enhance the economic growth of the country by providing job opportunities in both manufacturing and operations”, said Clive Turton, President of Vestas Asia Pacific.

“At Ecoren, we always believe in having the best global technology partnerships to harness our resource-rich sites and our collaboration with Vestas on both projects is an important milestone in our high value growth journey here”, said Prasad Yerneni, Chairman and Managing Director of Ecoren Energy.

Once completed, the project will have an estimated annual production of 61 GWh.

About Vestas

Vestas is the energy industry’s global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with 94 GW of wind turbines in 79 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled 79 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas’ more than 24,300 employees are bringing the world sustainable energy solutions to power a bright future.
