

## News release from Vestas Northern and Central Europe

Hamburg, 28 September 2018

### wpd awards Vestas with 59 MW project in Finland

Vestas has secured a 59 MW order for 14 V150-4.2 MW turbines with long-term customer wpd for the Kuuronkallio project located near Kannus in the Kalajokki region on the west coast of Finland.

wpd has secured a power purchase agreement with a third party for the full production of the Kuuronkallio wind park, providing clean and cost-effective power to the off-taker.

*“Protecting our climate and resources is a big part of the way we do business. Vestas’ ability to offer a strong business case was important for the success of the Kuuronkallio wind project as is the result of several years of collaboration, experience and hard work”,* says Dr. Gernot Blanke, CEO of wpd AG.

wpd specialises in the development, financing, construction and operation of wind parks on land and at sea and has a wide portfolio of Vestas wind parks all over the world.

*“We are thrilled to be cooperating with wpd on the Kuuronkallio project. Over the years we have expanded our collaboration and partnership with wpd to strengthen our commercial performance and deepen our ties across borders”,* says Nils de Baar, President Vestas Northern & Central Europe.

The Kuuronkallio project will feature VestasOnline® Business SCADA solution lowering turbine downtime to optimise the energy output. The contract further includes supply, installation and commissioning of the wind turbines, as well as a 20-year Active Output Management 5000 (AOM 5000) service agreement. Turbine installation is scheduled for the second half of 2019.

**About Vestas**

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with 94 GW of wind turbines in 79 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled 79 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 24,300 employees are bringing the world sustainable energy solutions to power a bright future.
