

## News release from Vestas-American Wind Technology

Portland, 30 September 2019

### Vestas wins 230 MW order in US with 20-year service agreement

Vestas has secured an order for 230 MW of V136-3.45 MW turbines delivered in 3.6 MW Power Optimised Mode for a wind project in the U.S. Including previously purchased 2 MW components, the project has a total nameplate capacity of 241 MW.

The mixed platform site configuration demonstrates both the flexibility of Vestas' 2 and 4 MW technology platforms, and Vestas' ability to create tailor-made site layouts designed to optimise the site's wind resources.

The order includes supply and commissioning of the turbines as well as a 20-year service agreement, designed to ensure optimised performance for the lifetime of the project. Turbine delivery will begin in the second quarter of 2020 with commissioning scheduled for the third quarter of 2020.

The project and customer are undisclosed.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with 105 GW of wind turbines in 80 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled 86 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 24,500 employees are bringing the world sustainable energy solutions to power a bright future.
