

News release from Vestas-American Wind Technology

Portland, 29 November 2019

Vestas wins 183 MW order in USA

Vestas has received an order for 183 MW of V120-2.2 MW turbines for a wind project in the U.S. with a number of turbines operating in 2.0 MW. Including previously purchased 2 MW platform components, the project has a total nameplate capacity of 202 MW.

The order includes supply and commissioning of the turbines as well as a 10-year service agreement, designed to ensure optimised performance for the lifetime of the project. Turbine delivery will begin in the second quarter of 2020 with commissioning scheduled for the fourth quarter of 2020.

The project and customer are undisclosed.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 108 GW of wind turbines in 80 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 91 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,000 employees are bringing the world sustainable energy solutions to power a bright future.
