

News release from Vestas Northern and Central Europe

Hamburg, 31 March 2020

Vestas secures 202 MW order along with a long-term service agreement in Sweden

Vestas has secured a 202 MW order for a wind project in Sweden that will comprise 47 V150-4.2 MW turbines in 4.3 MW Power Optimised Mode together with a 27-year Active Output Management 5000 (AOM 5000) service contract, optimising the energy production for the lifetime of the project.

“Leveraging the versatility of our 4 MW platform variants, the V150-4.2 MW is the perfect fit for the site’s wind conditions and will ensure maximum value for our customer’s business case”, states Juan Furones, Director Sales Sweden, Finland & Estonia, Vestas Northern & Central Europe. “This order once again underlines the V150-4.2 MW turbine’s competitiveness in the Nordic region, where it has now reached a firm order intake and installation track record of 1.4 GW”.

The project will feature a VestasOnline® Business SCADA solution, lowering turbine downtime and thus optimising the energy output. The contract further includes supply, installation and commissioning of the wind turbines, as well as a 27-year Active Output Management 5000 (AOM 5000) service agreement.

Turbine delivery is expected to begin in the first quarter of 2022, while commissioning is planned for the third quarter of 2022.

The customer and project are undisclosed.

About Vestas

Vestas is the energy industry’s global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 113 GW of wind turbines in 81 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 96 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas’ more than 25,000 employees are bringing the world sustainable energy solutions to power a bright future.
