

News release from Vestas Northern and Central Europe

Hamburg, 29 May 2020

Vestas wins 38 MW order in the UK

Vestas has secured a 38 MW project in the UK that will be located in the southwestern part of Scotland. The wind park will feature a customised Vestas solution, including nine V117-4.2 MW turbines with 81.5 m towers to maximise energy production in the site's medium to high wind conditions while meeting the tip height requirements.

"This project enables a highly competitive business case for our customer and offers the lowest cost of energy to the British energy consumers. It marks another step forward for renewable energy in the UK", states Nils de Baar, President of Vestas Northern & Central Europe.

Turbine deliveries are expected to begin in the second quarter of 2021, while commissioning is planned for the third quarter of 2021.

The project and customer are undisclosed.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 115 GW of wind turbines in 81 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 98 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
