

## News release from Vestas China

Beijing, 4 June 2020

### Vestas wins order for V155-3.3 MW turbines in China with new customer

Vestas has secured a 50 MW order from new customer China Three Gorge Renewables (CTG Renewables), one of China's biggest renewable energy developers, for the 50 MW project Juye I in Heze, Shandong province in China.

The order includes supply of 15 V155-3.3 MW turbines with 142m towers, as well as a 5 -year Active Output Management 5000 (AOM 5000) service agreement.

*"We are glad to enter the partnership with Vestas, who is known as an international leading renewable energy solution provider", says Guoqing Zhao, General Manager of CTG Renewables. "With Vestas' latest 4 MW platform variant and high tower solution, we hope to make the Juye project, located in a low-wind area, a successful case for CGT Renewables".*

*"We're excited to collaborate with CTG Renewables who has a strong track record in renewable energy development and operation", says Thomas Keller, President of Vestas China. "I'm particularly glad that this partnership benefits from our latest 4 MW platform variant, the V155-3.3 MW, which once again proves its applicability for the Chinese market".*

With this order, Vestas has secured more than 300 MW of order intake of the V155-3.3 MW turbine in China.

Deliveries are expected to begin in the fourth quarter of 2020, with commissioning planned for the same quarter.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 115 GW of wind turbines in 81 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 98 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
