Madrid, 18 June 2020

Auction win reinforces Vestas' leadership in Italy

Vestas has secured an order from Inergia SpA, a leading producer of renewable energy in Italy, for the Stornara project located in the Apulia region.

Awarded in the Italian auction round in October 2019, the 18 MW order adds to the more than 1.1 GW of contracts signed by Vestas in Italy's auction system, thus demonstrating its ability to support customers in submitting winning auction bids. The order reinforces Vestas' leadership in the country's wind energy sector, where it has installed more than 4.3 GW since 1991, accounting for a 40 percent market share.

The order includes the supply and installation of five V136-3.45 MW wind turbines delivered in 3.6 MW Power Optimised Mode, as well as a 10-year Active Output Management 4000 (AOM 4000) service agreement.

"We are proud to confirm Vestas as partner in our continued growth. With the Stornara project, Inergia has reached 200 MW in Italy with Vestas technology", says Roberto Cairoli Chief Operating Officer of Inergia.

"We are very pleased to partner with Inergia once again. The company has selected our 4 MW platform for the first time, showcasing the reliability of Vestas' solutions and our capability to adapt our cutting-edge technology to the specific requirements of the wind project", says Vestas Vice President of Sales Region South Europe and Turkey, Rainer Karan.

Turbine delivery will begin in the first quarter of 2021 with commissioning scheduled for the same quarter.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe, and with more than 115 GW of wind turbines in 81 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 98 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 25,500 employees are bringing the world sustainable energy solutions to power a bright future.
