

News release from Vestas Northern and Central Europe

Hamburg, 4 February 2021

Vestas wins 30 MW order in Poland

Vestas has secured a contract to supply, install and commission 15 V110-2.0 MW wind turbines for a 30 MW project in Poland.

The project adds to the about 1.6 GW of contracts signed in Poland's auction system to date, and it underlines once again Vestas' leading position in the Polish renewable energy sector, where the company today has installed about 2.4 GW of wind turbines.

The order includes a 10-year Active Output Management 5000 (AOM 5000) service agreement as well as a VestasOnline® Business SCADA solution, lowering turbine downtime and thus optimising the energy output.

Deliveries and commissioning are expected to begin in the first quarter of 2022.

Customer and project names are undisclosed at the customer's request.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 125 GW of wind turbines in 82 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 112 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
