

News release from Vestas-American Wind Technology

Portland, 31 March 2021

Vestas receives 55 MW order in the USA

Vestas has received a 55 MW order for an undisclosed wind project in the U.S. comprised of 24 V120-2.2 MW and 4 V110-2.0 MW wind turbines including previously purchased PTC components.

The order includes supply, installation, and commissioning of the turbines as well as 20-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance of the asset.

Turbine delivery will begin in the third quarter of 2021 with commissioning scheduled for the fourth quarter of 2021.

Project and customer are undisclosed.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 132 GW of wind turbines in 82 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 117 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
