

## News release from Vestas Northern and Central Europe

Hamburg, 30 June 2021

### Vestas adds 126 MW EnVentus order in Finland

Vestas has secured an order for the 126 MW Posio Murtotuuli project being developed by Taaleri Energia in Finland.

Vestas will supply, install and service 21 V162-6.0 MW turbines at Posio Murtotuuli, which will be equipped with the Vestas Anti-Icing System to protect against the harshest climatic conditions.

Vestas will provide service for the project through a long-term Active Output Management 5000 (AOM 5000) service agreement, providing power performance certainty and Vestas' industry-leading service expertise throughout the lifetime of the project.

*"We're delighted to be building on the track record of our industry-leading EnVentus platform with the Posio project with Taaleri Energia," said Nils de Baar, President of Vestas Northern & Central Europe. "Taaleri has been an open-minded partner, looking to secure the best site solutions for the EnVentus turbines, including the Vestas Anti-Icing System and a long-term service term".*

*"Vestas is a valued partner and the combination of their V162-6.0 MW turbines with long-term service agreements provide a very strong foundation for these investments from the Taaleri SolarWind II fund", said Taaleri Energia's Managing Director, Kai Rintala.*

The Posio Murtotuuli project is located in Posio municipality, in the province of Lapland, and will see turbines delivered in the second quarter of 2022 with commissioned beginning in the fourth quarter of 2022.

#### About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 136 GW of wind turbines in 84 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 117 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 29,000 employees are bringing the world sustainable energy solutions to power a bright future.
